+91 94372 25885
Ahmedabad, Gujarat

I design clear, useful digital experiences by understanding people, their needs, and the problems worth solving — with a strong foundation in visual design.

SELECTED PRODUCT DESIGN PROJECTS

Student Budget App	2026
UX / Product Design · Student	
Studied how college students spend and save — irregular income, small amounts, little patience for admin — and framed the problem as awareness, not accounting. Designed tracking that keeps entry effortless and spending legible at a glance.	
Panda Print App	2026
UX / Product Design · Student	
Campus printing breaks at the seams: unclear specifications, vendor back-and-forth, no way to know if a job is ready. Structured the flow end to end — upload, configure, track, collect — so student and vendor share one record.	
Further UX case studies in progress — available on request.	

EXPERIENCE

ProdFiner Solutions Pvt. Ltd.	May 2026 – Present
Ui-Ux & Illustration Intern · AI Training Data	
Produce illustration sets for AI training data — Finetuning LLMs, to generate Ai Comics.	
Exela Publishing House LLP	Feb 2026 – May 2026
Graphic Designer Intern	
Designed for early learners: worked out how young readers move through a page, then translated that into age-appropriate illustration and layout held to one standard across the house's educational print.	
Pugmark Omulus Consortium	2 months
Illustrator & Graphic Designer	
Built one visual system and carried it across formats — packaging graphics and die-lines for three products, a product booklet, an animal illustration set, interpretive panels for a nature centre, and the consortium website.	
InAmigos Foundation	3 months
Graphic Design & Motion Graphics	
Worked with content and outreach teams on live campaigns — posters, reels and short-form video kept consistent across channels as each campaign shifted.	
Contents Shark, Headfone House	Nov 2025 – Feb 2026
2D Illustrator	
Interpreted audio stories as digital illustration, AI-assisted, matched to the brand's narrative voice.	
Pattachitra Practice, Odisha	14+ months
Trained under practising artists — observation, craft, traditional visual language and cultural accuracy.	

EDUCATION

Nirma University	Bachelor's in Communication Design · Ahmedabad	2023 – Present
	Mother's Public School · CBSE, GPA 8.7 · Blessed Sacrament High School · ICSE, 93.2%	2018 – 2021
